Supplement to *New Zealand Engineering*, 15 February 1973

NEW ZEALAND
Engineering

INDEX

Volume 27

JANUARY-DECEMBER 1972

KEY TO PAGE NUMBERS

1 — 54 ..... JANUARY	157 — 186 ..... MAY	271 — 300 ..... SEPTEMBER
55 — 86 ..... FEBRUARY	187 — 216 ..... JUNE	301 — 332 ..... OCTOBER
87 — 122 ..... MARCH	217 — 242 ..... JULY	333 — 362 ..... NOVEMBER
123 — 156 ..... APRIL	243 — 270 ..... AUGUST	363 — 393 ..... DECEMBER

Author Index

A

ALEXANDER, D.: Possible implications of a magnetite-ilmenite-vanadium bearing gabbroic differentiate 40

ARMITAGE, T. G. B.: Constant-speed versus variable-speed pumping in waterworks practice 385

B

BECKER, M. P.. *See* Burns, D. McN.

BOWEN, G. L., and UNDERHILL, G. K.: Manifold design 202

BROMFIELD, E. A.: Better status for Britain's technician engineering staffs 263

BURDETT, P. A.: Some causes of objectionable noise and suggestions for control 354

BURNS, D. McN., McPHERSON, G. T., MAYES, C. J., PARNELL, J. C., PURVIS, R. F., BECKER, M. P., and TREUREN, G. H.: An automatic telephone network in a hydrogen sulphide laden atmosphere 3

C

CALLANDER, R. A., and STEPHENSON, J.: Teaching engineering design 280

CARR, A. J.: *See* Moss, P. J.

CODDINGTON, R. F.: Wellington's west coast—the problem of littoral drift and its possible future effects on Porirua harbour 125

D

DAVIES, J. T.: Important trends in engineering research 219

Turbulence phenomena — a study of eddies at interfaces 353

DODD, T. A. H.: Centrifuge testing for models of soil structures 286

DOGGETT, A. J.: *See* Papesch, A. J. G.

DUFFY, G. G., MOLLER, K., and TITCHENER, A. L.: A study of the flow properties of New Zealand wood pulp suspensions 273

G

GIMPL, M. L.: The declining role of the engineer and of engineering education 204

H

HARDY, J. G.: Peace, commerce and honest friendship 173

HARVEY, H. J.: Training—by accident or design 374

HASTIE, R. M., and TOYNBEE, P. A.: Some practical aspects of pneumatic handling of coal 189

HENWOOD, J. W.: Bedding requirements for rubber-ring sewer pipes 140

HITCHCOCK, E. H.: Progress and regulatory control 64

HOLMES, P. D. L.: A hydraulic problem model study 245

I

IRVINE, H. M.: Maximum hanger loads in suspension bridges 258

K

KATZER, G. R.: Industrial-process heat transfer I—Design considerations for shell and tube exchangers 107

Industrial-process heat transfer II—Cooling with ambient air 112

Industrial-process heat transfer III 176

L

LIND WALKER, G. E.: Silencing the automotive exhaust 365

LOUGHNAN, A. A. M.: The use of high-tensile corrugated galvanised iron 225

M

McLARIN, M. W.: Creep of an unfired ceramic clay 117

McPHERSON, G. T.: *See* Burns, D. McN.

MAIN, I.: Engineering public opinion 335

MARTIN, C. G.: The design of air-pollution control equipment 314

MAYES, C. J.: *See* Burns, D. McN.

MEDLAND, I. C.: A distribution method for the analysis of beams on elastic supports 254

MEYER, R. F.: A semester system at the Auckland School of Engineering 102

MOLLER, K.: *See* Duffy, G. G.

MOSS, P. J., and CARR, A. J.: The use of digital computers in civil engineering education and research at the University of Canterbury 250

N

NORMAN, R. G.: Earthquake engineering research 71

P

PARNELL, J. C.: *See* Burns, D. McN.

PAPESCH, A. J. G., and DOGGETT, A. J.: A model study of windbreaks on railway bridges 132

PEARSON, F. H.: Small buried pipes—simplified and safer design 194

POTTER, B. W.: Development of the technician beyond New Zealand Certificate level 73

PRIESTLEY, M. J. N.: Structural model study of a waffle-slab bridge deck 94

Thermal gradients in bridges —some design considerations 228

PURVIS, R. F.: *See* Burns, D. McN.

R

ROBERTS, J. S.: Damage in Wellington city during the *Wahine* storm 303

S

SHEPHERD, R.: Some aspects of the San Fernando earthquake 57

The seismic design of special structures 379

SMITH, R. A. J.: On being president 89

STEPHENSON, J.: *See* Callander, R. A.

STEVENSON, D. C.: *See* Taylor, J. B. C.

T

TAYLOR, J. B. C., and STEVENSON, D. C.: The supply of and demand for technician and professional engineers 1967-73 22

TAYLOR, R. E.: Towards a national wages policy 171

TITCHENER, A. L.: *See* Duffy, G. G.

TOYNBEE, P. A.: *See* Hastie, R. M

TRETHOWEN, H. A.: Response of buildings to unsteady heat flow 339

TREUREN, G. H.: *See* Burns, D. McN.

U

UNDERHILL, G. K.: *See* Bowen, G. L.

UNDRILL, J. M.: Computing in engineering dynamics 291

Power - system dispatch-office automation functions 164

W

WALKER, B. V.: An economic assessment of dissolving pulp production in New Zealand 308

WILLIAMSON, I. A.: Variable-speed waterworks booster station 30

WILLIAMS, M. J.: New Plymouth power station progress report 145

WILLIAMS, R. M.: Professional education and the university 159

Subject Index

AIR-POLLUTION:
The design of air-pollution control equipment (*Martin*) 314

BOOK REVIEWS: 53, 85, 155, 185, 216, 241, 299, 332, 392

BRIDGES:
A model study of windbreaks on railway bridges (*Papesch and Doggett*) 132
Maximum hanger loads in suspension bridges (*Irvine*) 258
Structural model study of a waffle-slab bridge deck (*Priestley*) 94
Thermal gradients in bridges—some design considerations (*Priestley*) 228
See also: CONSULTANTS' NOTEBOOK, GOVERNMENT SERVICE DIVISION NEWS

BUILDING SERVICES GROUP:
A code of practice 182
A standard for duct construction 122
Cost analysis—can we afford it? 234
Courses in heating and ventilating engineering 268
Do we hit your wavelength? 296
Fire protection in New Zealand —the building services engineer 360
I.P.T.S. 328
Of climes and clients 390
Panel unanimous on hospital design 51
Schedules of quantities 152
The realities of fluid flow 85
Will it burn: does it matter? 211

CHATHAM ISLANDS: *See* CONSULTANTS' NOTEBOOK

CHRISTCHURCH TOWN HALL: *See* CONSULTANTS' NOTEBOOK

CLAY:
Creep of an unfired ceramic clay (*McLarin*) 117

COMPUTERS:
Computing in engineering dynamics (*Undrill*) 291
Power-system dispatch-office automation functions (*Undrill*) 164
The use of digital computers in civil engineering education and research at the University of Canterbury (*Moss and Carr*) 250
See also: CONSULTANTS' NOTEBOOK

CONFERENCES & COURSES 86, 215
Geomechanics Symposium 356
The population conference 321
See also: BUILDING SERVICES GROUP

CONSULTANTS' NOTEBOOK:
A novel pile design 181
Chatham Islands development work 387
Christchurch town hall and civic centre 122
1972 Conference, Waitangi, 23-27 June 325
Effluent settling tanks 297
Foundation for Kinleith pulp mill extensions 359
New Zealand consultants in international competition 266
New Zealand engineers in Central America 80
Plaque unveiled at Te Rapa 151
Programmable calculators and mini computers 213
Taharoa ironsands 50
The Ballance Gorge bridge 235

CONSULTING ENGINEERS OVERSEAS:
Overseas commissions for New Zealand consulting engineers 348
See also: CONSULTANTS' NOTEBOOK

CODE OF PRACTICE: *See* BUILDING SERVICES GROUP

CORRESPONDENCE:
A model study of windbreaks on railway bridges 392
Management training 238
New Zealand Engineering 329
Our energy needs 237
Programmable calculators 330
Publication of technical papers .. 357
Semester system 238
Stainless steel for domestic water services 298, 357
The shingle problem 52, 84
Wages—policy? 298
Wellington's west coast 238
Will it burn: does it matter? 269, 298

COST ANALYSIS: *See* BUILDING SERVICES GROUP, INDUSTRIES DIVISION

DUCT CONSTRUCTION: *See* BUILDING SERVICES GROUP

EARTHQUAKES:
Some aspects of the San Fernando earthquake (*Shepherd*) 57
See also: RESEARCH, STRUCTURAL ANALYSIS

EDUCATION AND TRAINING:
A semester system at the Auckland School of Engineering (*Meyer*) 102
Teaching engineering design (*Callander and Stephenson*) .. 280
The declining role of the engineer and of engineering education (*Gimpl*) 204
Training—by accident or design (*Harvey*) 374
See also: CORRESPONDENCE, LEADING ARTICLES

EFFLUENT SETTLING TANKS: *See* CONSULTANTS' NOTEBOOK

ENERGY NEEDS: *See* CORRESPONDENCE, LEADING ARTICLES

ENGINEERS:
The supply of and demand for technician and professional engineers 1967-73 (*Taylor and Stevenson*) 22

EXHAUST:
Silencing the automotive exhaust (*Lind Walker*) 365

FIRE PROTECTION: *See* BUILDING SERVICES GROUP, CORRESPONDENCE

FLUID FLOW: *See* BUILDING SERVICES GROUP

GEOMECHANICS SOCIETY:
New Zealand Geomechanics Society 297

GOVERNMENT SERVICE DIVISION NEWS:
Back country river crossings 82
The Kaimai Tunnel 236

HEAT TRANSFER:
Industrial-process heat transfer I —Design considerations for shell and tube exchangers (*Katzer*) 107
Industrial-process heat transfer II—Cooling with ambient air (*Kazer*) 112
Industrial-process heat transfer III (*Katzer*) 176

HIGH-TENSILE CORRUGATED IRON:
The use of high-tensile corrugated galvanised iron (*Loughnan*) 225

HOSPITAL DESIGN: *See* BUILDING SERVICES GROUP

HOTELS: *See* BUILDING SERVICES GROUP

INDUSTRIAL RELATIONS: *See* INDUSTRIES DIVISION

INDUSTRIES DIVISION:
Economic appraisals of engineering projects 324
Fourth annual general meeting 182
Industrial relations 357
Industry and the environment—an industrial engineer's viewpoint 265
Interviewing techniques in management selection 52
Interview techniques — picking the winner 153
Towards metrication 388
Wages—policy? 212

INDUSTRY: *See* INDUSTRIES DIVISION

INTERVIEW TECHNIQUES: *See* INDUSTRIES DIVISION

KAIMAI TUNNEL: *See* GOVERNMENT SERVICE DIVISION

LEADING ARTICLES:
Advertising and the engineer's response 243
Management training — how, why, what? 123
Metric change 301
More willingly to school 55
Mr Muldoon makes a stand 187
"Not transferable to other disciplines" 333
Our energy needs 87
Strength in diversity 271
The engineer and inflation 157
The key resource 1
The President's Christmas message 363
The war 217

LEGISLATION:
Progress and regulatory control (*Hitchcock*) 64

MANAGEMENT: *See* CORRESPONDENCE, LEADING ARTICLES

MANIFOLD DESIGN:
Manifold design (*Bowen and Underhill*) 202

METRICATION:
Metric Notes 327, 361, 389
See also: INDUSTRIES DIVISION, LEADING ARTICLES

MINERAL DEPOSIT:
Possible implications of a magnetite - ilmenite - vanadium bearing gabbroic differentiate (*Alexander*) 40

NEW PLYMOUTH POWER STATION:
New Plymouth power station progress report (*Williams*) 145

NEW ZEALAND ENGINEERING: *See* CORRESPONDENCE, LEADING ARTICLES

NEW ZEALAND INSTITUTION OF ENGINEERS:
Presidential address (*Smith*) 89
The Newnham Lecture (*Williams*) 159
The 1971 Dobson Lectures 121
The 1972 conference guest lecture (*Davies*) 219

NOISE:
Some causes of objectionable noise and suggestions for control (*Burdett*) 354

NOTEWORTHY: 154, 183, 214, 240, 270, 300, 331, 362, 391

OBITUARIES 234, 326, 358

PACIFIC COMMUNITY:
Peace, commerce and honest friendship (*Hardy*) 173

PERSONAL: 49, 86, 122, 155, 183, 215, 241, 268, 299, 330, 361, 392

PILE DESIGN: *See* CONSULTANTS' NOTEBOOK

PIPES:
Bedding requirements for rubber-ring sewer pipes (*Henwood*) 140
Small buried pipes—simplified and safer design (*Pearson*) .. 194

PNEUMATIC HANDLING OF COAL:
Some practical aspects of pneumatic handling of coal (*Hastie and Toynbee*) 189

PORT TARANAKI:
A hydraulic problem model study (*Holmes*) 245

PUBLIC OPINION:
Engineering public opinion (*Main*) 335

PUMPING: *See* WATERWORKS

RESEARCH:
Auckland University School of Engineering research projects II 48
Auckland University School of Engineering research projects III 75
Earthquake engineering research (*Norman*) 71
See also: COMPUTERS, NEW ZEALAND INSTITUTION OF ENGINEERS, WATER POLLUTION RESEARCH

SCHEDULES OF QUANTITIES: *See* BUILDING SERVICES GROUP

SHINGLE PROBLEM IN DAMS: *See* CORRESPONDENCE

SOIL MECHANICS:
Centrifuge testing for models of soil structures (*Dodd*) 286

STAINLESS STEEL: *See* CORRESPONDENCE, WATERWORKS

STRUCTURAL ANALYSIS:
A distribution method for the analysis of beams on elastic supports (*Medland*) 254
Response of buildings to unsteady heat flow (*Trethowen*) 339
The seismic design of special structures (*Shepherd*) 379
See also: BRIDGES

TAHAROA IRONSANDS: *See* CONSULTANTS' NOTEBOOK

TECHNICIAN ENGINEERS:
Better status for Britain's technician engineering staffs (*Bromfield*) 263
Development of the technician beyond New Zealand Certificate level (*Potter*) 73
See also: ENGINEERS

TELEPHONE NETWORK:
An automatic telephone network in a hydrogen sulphide laden atmosphere (*Burns, McPherson, Mayes, Parnell, Purvis, Becker and Treuren*) 3

TEMPERATURE SCALE: *See* BUILDING SERVICES GROUP

TE RAPA MILK POWDER FACTORY: *See* CONSULTANTS' NOTEBOOK

TURBULENCE PHENOMENA:
Turbulence phenomena—a study of eddies at interfaces (*Davies*) 353

WAGES:
Towards a national wages policy (*Taylor*) 171
See CORRESPONDENCE, INDUSTRIES DIVISION

WATER POLLUTION RESEARCH:
First annual meeting of the Committee for Water Pollution Research 239

WATERWORKS:
Constant-speed versus variable-speed pumping in waterworks practice (*Armitage*) .. 385
Disinfection of water mains 207
The use of stainless steel for domestic water services 209
Variable-speed waterworks booster station (*Williamson*) 30
See also: CORRESPONDENCE

WELLINGTON:
Damage in Wellington city during the *Wahine* storm (*Roberts*) 303
Wellington's west coast—the problem of littoral drift and its possible future effects on Porirua harbour (*Coddington*) 125
See also: CORRESPONDENCE

WINDBREAKS: *See* BRIDGES

WOOD PULP:
An economic assessment of dissolving pulp production in New Zealand (*Walker*) 308
A study of the flow properties of New Zealand wood pulp suspensions (*Duffy, Moller and Titchener*) 273
See also: CONSULTANTS' NOTEBOOK
